

University of Bergen

Faculty of Law

Exchange Programme Fact Sheet 2022/2023

About the Faculty of Law

The Faculty of Law has 2500 students and employs about 100 persons in academic and administrative positions. We focus on high quality research and teaching within a variety of legal areas. Our faculty offers foremost expertise in criminal law and criminal theory. Also, many of our senior researchers are devoted to human rights law and welfare law. The faculty has strong research environments in private law, and research areas of priority include competition law and EU law, as well as intellectual property law.

The faculty's international profile is reflected both in research activities, and in the substantial number of international exchange students which we have the pleasure of welcoming every semester. It is also seen in the number of students from our faculty who choose to study abroad for a semester or two; between 40 and 50 % of the last years' graduates had studied abroad as part of their law degree.

Why choose the Faculty of Law, University of Bergen as your study abroad destination?

The faculty offers a selection of courses taught in English, open to students at both undergraduate and graduate level. The courses are taught by specialists within the fields, including professors from recognised universities abroad. We would particularly like to draw your attention to courses which are new as of 2021: *Privacy and Data Protection – GDPR / Law of Armed Conflict, with emphasis on maritime operations / Comparative European Constitutional Law / Legal Technology: Artificial Intelligence and Law / Energy Law: Hydrocarbons, Renewables and Energy Market / International Climate Law.*

In addition to the faculty's academic excellence, one of the most striking features of the Faculty of Law, and the University of Bergen in general, is its location in the very heart of the city; providing the students with many opportunities to take part in Bergen's rich cultural life. The beautiful fjords and mountains of Western Norway are also within easy reach. Bergen offers a unique combination of vibrant cultural life, breath taking experiences of nature, and most importantly: high quality education!
